We were very pleased with the content of Happy Choices musical CDs. Even more than that we enjoyed the activities performed and designed by the music creator. The children here at our facility has memorized many of the tunes in just a few weeks. The content of the music is highly impressive. Happy Choices creator has found an eclectic way of teaching moral values. I am pleased to say that encompassed in these highly enjoyable musicals are learning experiences from all of the developmental domains. Ms. Tina has found a unique way to emergently teach children through the joy of music.

I give Happy Choices two Thumbs up !

To Whom It May Concern:

I am writing this letter in recommendation of Mrs. Teondra Lyles. Mrs. Lyles presented our staff with the opportunity to purchase her "Happy Choices" CD's early in the school year. After purchasing the CD's for our kindergarten classes Mrs. Lyles scheduled a performance for the kindergarten students at John Weldon Elementary.

If you are looking for an enthusiastic, uplifting and entertaining presentation "Mrs. Tena" provides a fun, interactive presentation for young students. Mrs. Tena's mission is to reach and teach children to make "Happy Choices". In doing so she incorporates character development, good nutrition and hygiene, good manners, motor skills and cognitive skills. Children remain engaged throughout the presentation because it is so interactive and Mrs. Tena attains positive rapport with the students immediately.

If you have the opportunity to have Mrs. Tena do an assembly for your students you will not be disappointed. Mrs. Tena is a natural teacher and performer and promotes positive healthy choices. Students enjoyed her presentation and were still singing when they left the assembly!

Sincerely,

Cindi S. Crigler
